About

Information Technology graduate with hands-on experience building, debugging, and deploying software applications. Strong foundation in web development, problem-solving, databases, APIs, and software engineering. Experienced with modern full-stack technologies through academic projects and frontend development internship.

Education

Techno International New Town
B.Tech in Information Technology
Affiliated to MAKAUT

2022 – 2026
CGPA: 7.15/10

Projects

ShopiKart — E-Commerce Platform | React.js, Redux Toolkit, Node.js, Express.js, MongoDB, JWT

- Built a full-stack e-commerce platform with shopping and rental workflows, secure JWT authentication, product/rental CRUD, cart APIs, order placement, and an admin dashboard.
- Implemented review analysis using verified/all-customer ratings, sentiment categorization, color-coded ratings, tag-cloud visualization, voice search, notifications, and product variants.
- Developed responsive UI features including wishlist, animated product cards, checkout, order tracking, rental security deposit, and featured/most-liked products.

Interactive Music Player | HTML, CSS, JavaScript

- Built a feature-rich music player with custom playlists, waveform visualization, autoplay, volume control, and timeline scrubbing.
- Designed a responsive interface focused on interactive controls and smooth user experience.

Portfolio Website | HTML, CSS, JavaScript

- Designed and deployed a professional portfolio website showcasing projects and technical skills with responsive layouts and modern UI principles.

Experience

Frontend Development Intern

July 2025

CodeAlpha

- Developed responsive web interfaces using HTML, CSS, and JavaScript to implement interactive UI features.
- Applied GitHub-based workflows and debugging techniques using Git for source control and collaborative development.
- Managed deployment processes and delivered completed UI components in a virtual internship environment.

Skills

Languages: JavaScript, HTML, CSS, SQL

Frameworks & Libraries: React.js, Redux Toolkit, Node.js, Express.js

Databases & Backend: MongoDB, MongoDB Atlas, REST APIs, JWT Authentication

Tools & Technologies: Git, GitHub, Material UI, VS Code, Web Speech API, Razorpay

Core: Frontend Development, Full-Stack Web Development, Responsive Design, Debugging, Problem-Solving
